

# **Design Decisions**

## **1. Insert your short and compelling design decision title phrase**

Begin your design decision discussion with introducing the decision and the rationale behind why you chose it but be sure to discuss any limitations this choice still has.

***Alternatives Considered:*** Then go on to listing alternative design choices you may have considered and discuss why you didn't choose them, comparing them to the design you did choose.

## **2. Insert your short and compelling design decision title phrase**

Begin your design decision discussion with introducing the decision and the rationale behind why you chose it but be sure to discuss any limitations this choice still has.

***Alternatives Considered:*** Then go on to listing alternative design choices you may have considered and discuss why you didn't choose them, comparing them to the design you did choose.

## **3. Insert your short and compelling design decision title phrase**

Begin your design decision discussion with introducing the decision and the rationale behind why you chose it but be sure to discuss any limitations this choice still has.

***Alternatives Considered:*** Then go on to listing alternative design choices you may have considered and discuss why you didn't choose them, comparing them to the design you did choose.

## **4. Insert your short and compelling design decision title phrase**

Begin your design decision discussion with introducing the decision and the rationale behind why you chose it but be sure to discuss any limitations this choice still has.

**Alternatives Considered:** Then go on to listing alternative design choices you may have considered and discuss why you didn't choose them, comparing them to the design you did choose.

## Ethical / Social Reflection

Describe how conducting the A4 reflection informed your design process in this assignment. In particular, has your interface design changed as a result – how, or why not? Also, are there other social/ethical implications that you encountered when translating your wireframes into a working implementation?
